Need to track data?
Still using Excel?

Our IDA (Initial Data Application) WebBase can track your client applications, client contact information, programs and/or grant funding, generate response letters and reports in a simple cloud-based solution that can help simplify your work and boost productivity.

Let **TTnet** help simplify your work and boost productivity with the IDA (Initial Data Application) WebBase (Web based database) to suite your organization's needs and at an affordable price. Our WebBases are easy to use for anyone who is familiar with the Internet.

TTnet Services:

· Computer/Network Services
· Basic Website Design/Hosting
· Design & Implementation Customized Databases (WebBase or Client Based) to meet your needs.
